OM 15-2-1

CECW-PO

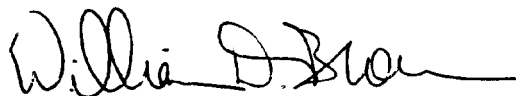

Memorandum
No. 15-2-1

30 October 1992

Boards, Commissions and Committees
CHIEF OF ENGINEERS ENVIRONMENTAL ADVISORY BOARD

1. Purpose. This memorandum establishes the Chief of Engineers Environmental Advisory Board (EAB) and prescribes its organization and functions.
2. Applicability. This memorandum applies to all HQUSACE/OCE elements.
3. Organization. The Environmental Advisory Board consists of not less than five and not more than ten members selected by the Chief of Engineers representing a practicable balance of expert knowledge, experience, and geographic orientation in environmental resource management matters. Membership on the Board is for a term of two years. A maximum of two consecutive terms may normally be served. To assure continuity, terms of members should be staggered with no more than two Board members appointed to the Board at the same time. The EAB selects one member to serve as Chairman and one member as Vice-Chairman. The Chief, Office of Environmental Policy, Policy and Planning Division, Directorate of Civil Works, serves as Secretary and Executive Vice-Chairman to the Board.
4. Functions. The Board serves as advisor to the Chief of Engineers for environmental resource management matters. It provides advice on identifying and resolving environmental issues and preventing potential problems associated with new or expanded U.S. Army Corps of Engineers missions. It assists in developing methods for quantifying the tangible and intangible costs and benefits of Corps programs. The Board also advises on new directions that the Corps can take to continue to solve not only the engineering and economic aspects of new challenges and problems, but also those environmental features for which it has responsibility.
5. Administrative Arrangements. The Board will normally meet, in public session, biannually at a time and place designated by the Chief of Engineers.

FOR THE CHIEF OF ENGINEERS:

WILLIAM D. BROWN
Colonel, Corps of Engineers
Chief of Staff

This memorandum supersedes OM 15-2-1, 12 September 1984.
